¹Certain states require funds to meet in-state investment thresholds before a shareholder can exempt the income earned from both bonds issued by his or her home state. In 2025 none of the funds listed above satisfied the thresholds imposed by California or Minnesota. Certain states, such as California, may require the payers of exempt interest dividends to report to the state tax authority any municipal bond interest and exempt-interest dividends paid to residents. Other states, such as Illinois, do not exempt interest earned from obligations issued by the state when held indirectly through a mutual fund.

²Utah residents should refer to the letter, mailed separately, which provides information on the treatment of distributions from Fidelity municipal funds based on Utah's state law.
